

# Robert "Sky" McDougall

AEA | SAG | AFTRA

Although a veteran actor (his first paid film role was at age nine!), Sky is a relative newcomer to Hollywood. His Los Angeles stage credits include Actors Co-op's TO KILL A MOCKINGBIRD, as well as RHINOCEROS and BURY THE DEAD with The Antaeus Classical Theatre Company. He also performed in California Artists Radio Theatre's LEVIATHAN 99 - a live-on-stage radio drama tribute to author, Ray Bradbury, with a cast that included William Shatner, Sean Astin, Norman Lloyd, Walter Koenig and Samantha Eggar. In regional theatre, Sky has performed principal roles in BARNUM, CALIFORNIA SUITE, NOISES OFF!, THE MUSIC MAN and MURDER IN THE CATHEDRAL, among many others.

Sky's television work includes a recurring role (40+ episodes) as a mysterious Monk on the daytime drama series, PASSIONS, and appearances on JIMMY KIMMEL LIVE!, COMMANDER-IN-CHIEF, MADTV, UNTOLD STORIES OF THE E.R. and ELLA & ME.

His film credits include TEN MEN ON THE FIELD, WHAT IS THE ELECTRIC CAR?, THE MARIONETTE, WHO WANTS TO MARRY MY HUSBAND?, and a song-and-dance lead role as an inept wizard in the family film, THE LAND OF MAKE BELIEVE (which was distributed in the U.S., Canada and Great Britain). He also appeared in music videos for Christina Aguilera (HURT - 2006) and Eurythmics (I'VE GOT A LIFE - 2005).

Sky's work as a voice actor includes narration for a reality TV show pilot produced by the team that does Bravo's REAL HOUSEWIVES OF BEVERLY HILLS. He provided the voice of "Air Traffic Control" for Paramount Digital's 2010 TOP GUN - THE VIDEO GAME, and has done hundreds of commercials and narration projects over the past 35 years, including animated characters.

Through the years, he has also been seen (or heard) in multi-media theme park attractions at the Walt Disney World "Magic Kingdom", Universal Studios Orlando and NASA's Space Center Houston.

Sky feels blessed to be a part of the multiple award-winning Actors Co-op Theatre Company in Hollywood and a member of BADD (the Bel Air Drama Department).
